
TOMOKA VIEW SERVICE AREA

Tomoka View is a water only system, located in the northeast corner of Volusia County approximately 7.5 miles north of the intersection of Interstate I-4 & I-95. The FGU serves approximately 195 water customers.

Water System Summary

The Tomoka View water system has one water treatment plant (WTP) which is a Category IV Class C facility with a permitted capacity of 19.35 million gallons per year 05030 GPD. The facility has two wells which pump water to two (2) interconnected ground storage tanks (15,000 gallons & 3,000 gallons) after being disinfected with chloramines. Water is then pumped from the storage tanks to a 3000 gallon hydro-pneumatic (HPN) tank and then finally to the distribution system.

Water System Components

The water treatment plant consists of the following-

- Two ground water wells (with submersible pumps)
 - Two interconnected ground storage tanks (15,000 gallons and 3,000 gallons)
 - Two high service pumps
 - One 3,000 gallon hydro-pneumatic tank (HPN)
 - Chloramine disinfection system
 - Polyphosphate injection for corrosion inhibition
-
